A Mental Health Treatment Service

*... Here for you,
a place to talk*

About the NJCC

The NJCC is an affordable mental health treatment service providing care for the community since 1980. We serve children, adolescents, adults, seniors, families, couples and groups at fees that are based entirely on the client's personal circumstances.

Our philosophy is that finances should not interfere with getting excellent mental health treatment. We are generally able to see the client within one week of the initial call to the Center.

The Client as Consultant

This is a great place to get treatment if you are stressed, depressed, or anxious. People come to the NJCC to figure out how to improve their relationships (in family, work, etc.).

At the NJCC we are skilled working with more serious problems, helping both the patient and their families to address what's going on. Long or short term treatment is available. Our therapists work with you to design the right approach on your needs and goals.

Treatment Approach

NJCC therapists are skilled in a supportive treatment approach.

The therapeutic techniques used are designed to help clients develop new coping skills, enabling them to improve their relationships in work and love.

In the treatment offered at NJCC clients are used as consultants in their therapy. Details of the treatment, fees and frequency of sessions are determined between therapist/client.

Client Testimonials

"We cannot thank you enough for all your help with our son. It is with great pride and confidence that we say you have made a difference in the lives of our family" – AF

"For the first time in my life I felt someone truly listened and understood" – DD

"Thank you NJCC for helping to give me the courage to take the next step" – TC

"Our marriage is the strongest it's ever been!" - LF
