

OUR MISSION

To

provide an environment where residents are afforded the opportunity to be law-abiding, productive members of society; healthy in body, mind and spirit; and useful to others.

MilestoneHouse**

WHO WE ARE

The Milestone House is a premier Sober Living Facility for men and women who want to make recovery a way of life. We are proud to be a leader in the industry and currently have three sites located in historic Dover, New Jersey.

Our residents have typically completed some level of structured treatment and must be drug and alcohol free prior to entering our community. The Milestone House encourages continued growth in recovery while living "real life" as responsible adults. Recovery life and "real life" merge as one.

Here is the opportunity to transform our lives in a supportive and friendly environment. Men and women ages 18 and over are welcome at The Milestone House. A large percentage of our residents have multiple years of recovery, highlighting the essence of what true Sober Living encompasses.

WILLINGNESS & ACTION

Willingness and taking action is the fundamental expectation we embody. Recovery is experiential. It must be lived. Our residents find out for themselves that lasting recovery is possible through daily action. It is this action that bonds the newcomer with the resident celebrating multiple years of sobriety.

We offer many amenities and comforts, but what is truly priceless is the energy of our environment; a spirit of love, tolerance, helpfulness, serenity and usefulness—absolute results from the working and re-working of the 12-steps.

You will be encouraged to join us at all of our on-site, solution-based meetings and workshops and to truly experience a "new freedom and happiness."

FEATURES & HIGHLIGHTS
