INTENSIVE OUTPATIENT PROGRAM

IOP

Our Intensive Outpatient Program (IOP) is an integrative approach for individuals who require a structured treatment program to assist them in overcoming addiction. IOP is designed to allow individuals to receive intensive outpatient treatment while minimizing disruption in their lives. In addition to evidence-based practices, we offer holistic treatments as part of our integrative approach to addiction recovery. This includes mindfulness, experiential therapy, expressive art therapy, and yoga for recovery. Services include:

- Group Therapy
- Weekly Counseling
- Case Management Sessions
- Weekly Drug Analysis
- Holistic and Cognitive Therapy
- Psychiatric Consultations

OUTPATIENT COUNSELING

COMPASSIONATE

Outpatient Counseling is intended for individuals who need of ongoing support in their recovery from addiction while minimizing disruption in their lives. Services include:

- Weekly Sessions
- Case Management
- Relapse Prevention
- Psychiatric Consultations
- Medication Management

ABOUT US

OUR MISSION

Founded in 2013, Excel Treatment Center has grown into one of the most successful substance abuse outpatient treatment facilities in the area.

Excel Treatment Center is privately owned and is designed to offer an alternative, personal approach to substance abuse treatment. The Excel Treatment Team is dedicated to providing clients with comprehensive, individualized treatment in an intimate environment.

Our clinical staff is trained in substance abuse, social work and professional counseling services and are available to clients for individual, family, and group sessions.

Our goal at Excel Treatment Center is to ensure that clients are given the tools and skills needed to maintain long term sobriety.
